# Keep the Steps in the Castro! *a progress report*

We're now halfway through our six-month campaign to raise \$100,000 in donations under \$1,000, and as you can see on the left side of the Pledge Drive Thermometer mounted on the front of the CCC building (below), so far we've raised about \$38,000!

But the right side of the thermometer measures total donations, including donations *larger* than \$1,000. Our total goal, including small and large donations, is \$700,000. Right now, we have about \$75,000, which is an impressive sum, but only 10.7% of our goal, and not enough for a downpayment on a building listed for \$1.5 million.

If we are successful in raising \$700,000, we would be assured that we could not only buy the building that has been our sober refuge for 27+ years, but our mortgage payments would be comparable to or less than the rent we are paying now, and we would also be able to make

necessary  
improvements to the building.

The building has been on the market for 45 days, and to our knowledge no one has made an offer yet. But once a serious offer is made, all bets are off, and if we get a hostile landlord, we will have to seek out a new home.
